<u>170629 CUDFlow 2017 Jan-May.csv</u> <u>170629 OSFlow 2017 Jan-May.csv</u>

Team,

I inadvertently attached last month's files to my email yesterday. Please see the attached for the current data through May.

Thanks,

Marc

Subject: Leviathan Mine - Aspen Seep and CUD Provisional Flow Data - May 2017

Lynda/Gary,

As requested in the U.S. EPA's April 25, 2017 email, Atlantic Richfield is providing provisional flow data from the weirs located at the Aspen Seep (a.k.a – overburden seep or OS) and CUD. The attached data file covers the time period from 1/1/17 through 5/31/17. Atlantic Richfield is still reviewing flow data from June and anticipates providing those data by 7/31/17.

Please note that all flow data transmitted to the U.S. EPA this way are considered provisional and subject to further verification and possible revision. Data will be considered final when provided as part of the project database.

Should you have any questions or comments please contact Tony Brown at (657) 529-4537 or anthony.brown@bp.com.

Thanks,

Marc
